Summary

Dynamic Senior L&D Leader with 12+ years driving operational readiness and performance optimization in high-volume global BPO environments. Specialized in integrating Generative AI and digital learning tools to accelerate time-to-proficiency. Successfully reduced total training duration by 50% through AI-driven micro-learning, while sustaining a 97% pass rate and 80% throughput for 250+ monthly trainees. Expert in aligning training outcomes with core business metrics (CSAT, AHT, ROI) to maximize profitability.

Core Competencies

Core Competencies: L&D Strategy & Leadership, BPO Operational Readiness, ROI Calculation & Reporting, Performance Diagnostics & Analytics, Curriculum Design & Micro-learning, Stakeholder Management.

TECHNICAL & AI SKILLS:

- Generative AI & EdTech:** AI Video & Audio Production (Runway, HeyGen, Skyworks, Google Vids, Google Flow, ElevenLabs), AI-Assisted Scripting & Research (NotebookLM, Midjourney), Advanced Prompt Engineering, Digital Knowledge Base Development.
- LMS & Platforms:** Zoho Learn, Enterprise LMS Administration, Microsoft Office Suite.

Experience

EdTech Content Architect & L&D Consultant (Freelance)

Cairo, Egypt | Jan 2026 – Present

- Engineered and produced 200+ high-quality, AI-generated educational videos for the Saudi Arabian curriculum utilizing advanced generative platforms (Runway, HeyGen, Skyworks, Google Vids, Google Flow, ElevenLabs, NotebookLM, Midjourney).
- Designed and launched interactive micro-learning modules to enhance engagement, leveraging digital storytelling and prompt engineering to accelerate content delivery.

GoChat 247 – Cairo, Egypt

Training Section Head | Mar 2024 – Dec 2025

- Managed and supported a team of Trainers with onboarding 250+ trainees monthly across global accounts to ensure effective learning delivery and operational readiness.
- Monitored training activities, rooms, systems, and calendars to ensure training was distributed effectively and scheduling conflicts were resolved.
- Directed a team of trainers to onboard 250+ global trainees monthly, successfully sustaining a 97% training pass rate and an 80% throughput rate across complex BPO accounts.
- Spearheaded the integration of AI-driven digital refreshers, effectively reducing total training duration by 50% while optimizing room occupancy and trainer utilization.
- Led organizational digital transformation by implementing a comprehensive digital Knowledge Base using Zoho Learn, standardizing SOPs for global accounts.
- Partnered cross-functionally with Operations, QA, and WFM leaders to conduct root-cause analysis on performance gaps, designing targeted interventions to directly impact early production performance.
- Managed training plans to ensure trainees were properly trained, certified, and aligned with client expectations.
- Ensured all issues relating to the training process were addressed, conducted root cause analysis, and provided actionable recommendations.
- Partnered with Operations, Quality, and Workforce teams to identify performance gaps and precise training needs.
- Conducted training observations and coaching sessions, providing developmental feedback to Trainers and Trainees.
- Tracked and reported critical training metrics, including throughput, training attrition, and early production performance.
- Ensured all training materials, SOPs, and learning content were updated and aligned with strict client requirements.

- Drove engagement initiatives within training classes to enhance the learner experience and maximize retention.
- Participated in client meetings, supported calibration sessions, and provided strategic training-related updates.

Ulemt - Cairo, Egypt
